

STORM DRAINAGE UTILITY
PLAN SHEET REQUIREMENTS
FOR FEE CALCULATION ON NEW PROJECTS

A site plan showing impervious areas on a site is required by the City of Hurst for the purpose of calculating storm water fees.

- 1.) Site plan **MUST** meet As-built Record drawing requirements as the Storm Drainage Utility Plan.
- 2.) Site plans must be in their entirety on one page for each parcel. All parcel Boundary lines **MUST** be clearly marked and shown. Plans with unclear Parcel boundary lines or parcel boundary lines that are cut off will **not** be accepted.
- 3.) Site plan **MUST** clearly delineate impervious areas as closed polygons. Cluttered site plans that Interfere with the legibility of impervious surface will **not** be accepted.
- 4.) Provide sub-division name, lot, block and address.
- 5.) Where possible, the name and address of the proposed business (i.e. Wal-Mart, Chic-Fil-A, etc.) should be identified within the site plan.

IMPORTANT: Failure to meet any criteria on this checklist will be grounds to place holds on the building permit.
